OBJECTIVE

A sophomore majoring in Data Science with a passion for numbers and innovation. Proud to possess the ability to combine sharp critical thinking and logical creativity to deconstruct complex problems. My ultimate goal is to seek an opportunity to join a professional tech environment, where I can apply and elevate my skills, and directly provide breakthrough data-driven solutions.

EDUCATION

University of Economics - Technology for Industries 2025 - 2029 (expected)
Bachelor of Science in Data Science

SKILLS

Programming Languages	Python, SQL, R, C++
Data Processing & Analysis	Pandas, NumPy, OpenCV, Statistical Analysis
Machine Learning & AI	Natural Language Processing (NLP), Transformer Architectures
Generative AI & Prompting	Prompt Engineering, AI Skills Creation & Management
Database & Data Flow	MySQL, Firebase, Node-RED
Data Visualization	Power BI, Microsoft Excel
Tools & Environments	Git, GitHub, Docker, VS Code, FastAPI
Core Competencies	Critical Thinking, Logical Creativity, Problem Solving

PROJECTS

Data Claw (Data Mining Suite) <i>Python, Pandas, BeautifulSoup, SerpApi, NASA API, Power BI</i>	October 2025 - Present
- Engineered an automated ETL pipeline to extract and validate diverse data streams from NASA POWER API, Google Scholar, and HTML structures. - Developed Paper Miner for Q-rank classification and a Unified CLI with batch processing and backoff retry mechanisms to ensure robust error handling. - Automated formatted Executive Reports generation and integrated Power BI dashboards for comprehensive visualization and trend analysis.	
NEST VOICE BANKING (Inclusive Banking App) <i>Dart, Flutter, Accessibility UI/UX, Firebase</i>	May 2026 - Present
- Engineered a cross-platform Flutter/Dart application providing accessible and secure financial services tailored for the hearing-impaired community. - Designed an accessibility-first interface and rapidly prototyped the solution for the Hack Cx Together competition, demonstrating strong critical problem-solving.	

CERTIFICATIONS

IBM Introduction to Data Analytics	May 2026
NASA International Space Apps Challenge <i>Environmental Solution Award</i>	October 2025
Microsoft Office Specialist (MOS) <i>Excel & PowerPoint</i>	September 2025
